

# ISP Group Partners with GenTwo for Structured Product Issuance

**Zurich, 30 May, 2024** – Today ISP Group, the global investment boutique headquartered in Zurich, and GenTwo, the leading Swiss Fintech, announce that they are expanding their already strong relationship.

This expanded partnership consists of two main pillars.

First, in line with both companies' joint commitment to innovation in securitization and structured products, the partners will invest into each other's infrastructure to further streamline product issuance. This reflects their shared purpose of providing the best possible service to clients.

Second, ISP Group has launched a new, additional issuance vehicle through the GenTwo Pro Platform. While ISP Group continues to cater to its own existing securitization platform independently, the new complementary setup will allow both parties to expand their capabilities and enlarge their respective product shelves.

With this move, the two leading securitization players in Switzerland are now officially partnering for the benefit of all market stakeholders. While GenTwo continues to focus on building out its market-leading GenTwo Pro platform, ISP Group will focus its service-driven, regulated offering towards independent asset managers. Clients on both ends will profit from faster and more streamlined product issuance and enhanced operational efficiency.

Roy Tal, Chairman of ISP Group, said: "It's truly remarkable, that two of the strongest securitization players in the market are joining forces even more closely. Our common clients will benefit not only from more efficient product issuance, but also from a broader product offering."

Philippe A. Naegeli, Co-Founder and CEO of GenTwo, said: "ISP Group and GenTwo have enjoyed a close partnership since the inception of GenTwo. After six years of excelling together, I am excited that our two companies have been able to identify these significant opportunities to deepen our relationship. By leveraging our individual strengths, we are poised to create synergies and drive efficiencies in our market."

## About ISP Group

ISP Group ([www.ispgroup.com](http://www.ispgroup.com)) is a Swiss privately-owned specialised investment boutique founded in 1993. We serve corporates, banks and other financial institutions, investors, and traders through a unique blend of the latest technology, high-touch service and the extensive expertise of our interdisciplinary teams. We specialise in asset solutions (securitisation, paying agent services, custody, liquidity provision, trading and execution), investment management (wealth and asset management and placement agent) and global markets (fixed income, structured products and private market opportunities).

## About GenTwo

Founded in 2018, GenTwo is a Swiss-based B2B fintech company that operates globally with the mission to expand the investment universe by making all assets investable. GenTwo has built a financial engineering network based on

two pillars. Its proprietary platform solution GenTwo PRO empowers investment professionals to create unlimited, white-labeled investment solutions. Its AssetRush event series, which has established itself on the Swiss financial services industry calendar, provides a unique forum for showcasing the investment revolution that its next generation securitization platform is helping to catalyze. GenTwo currently has over 3.5 billion US dollars in Assets under Service (AuS). GenTwo Digital is a subsidiary of GenTwo, bridging the gap between traditional and digital assets.
